# MEET SAINT – OUR STORY

SAINT Solutions assists industries in managing their physical assets using an affordable, user friendly, cloud-based Computerised Maintenance Management System (CMMS). We are a BEE Level 2 company, which has provided reliable software and best practices for clients since 2015 when it was founded by Tyrone Leech. In 2016 we partnered with Fiix Software to bring world class Cloud Based CMMS Software to Africa. SAINT Solutions markets, implements and supports Fiix throughout the African region and has become their biggest partner across the globe. Fiix Software is currently installed in over 4,500 clients, in 99 countries and 10 different languages. In addition, SAINT Solutions has developed a host of value-added asset management technologies & processes and software tools to offer fully integrated solutions to our global client base. The appeal of our software has no limits, and it embraces industries such as manufacturing, mining and minerals, facilities and real estate, agriculture, food and beverage, healthcare facilities and the transportation sector. Our portfolio includes a selection of blue-chip companies like: Diamond Trading Company Botswana; AFGRI Animal Feeds; Bayer CropScience LLC; Bidvest Laundry Group; Barplats Mines Ltd and the Steinweg Group.

## WHY CHOOSE SAINT?

SAINT Solutions' partnership with Fiix offers world class, affordable, robust CMMS for a market that has previously been underserved by larger, on premise software vendors. From implementation to Go Live, we work closely with maintenance managers and their teams building up a solid support relationship ensuring that the CMMS software is fully understood and integrated.

Fiix is user-friendly for the entire team to operate, yet powerful enough for any project. Fiix has a history of dedicated commitment to transform maintenance into a formidable business asset by replacing complex legacy systems. It has become the recommended CMMS for asset management.

The new technician-focused mobile app enables better business intelligence with visualised maintenance data. This extension permits the Fiix API to connect to more software solutions than ever before. We operate in the Cloud, which means the software is available over the Internet. This allows you to access information anywhere in the world across multiple systems. SAINT Solutions has over 60 years' combined experience in Asset Management and CMMS consulting.

## OUR MISSION

Our mission is to provide affordable, reliable, user friendly, cloud based, cutting-edge software to our clients, supported with unbeatable service.

## OUR VISION

Our vision is to assist businesses across the globe in Fiix-ing their assets by increasing asset reliability and enabling them to make informed decisions on their critical assets based on reliable CMMS Data. We want to be the leaders in CMMS Implementations throughout Africa.

## OUR VALUES

We have a passion for delivering value to our clients through high quality and innovative software with exceptional client service. We believe in total transparency and integrity, while delivering ongoing commitment and a hands-on approach to each and every project.

## MEET OUR LEADERSHIP TEAM

SAINT Solutions has a dynamic, experienced, well informed team who will guide you along the way to effective asset management. Maintenance Planning & Scheduling; Analysis & Reporting; System Configuration; Focused Improvement; Supportive Client Relations are part of the daily routine.

**TYRONE LEECH** (Managing Director) has over 20 years in Asset Management Consulting and CMMS implementations and best practices.

**DAYLE SHORTT** (Customer Success Manager) is an experienced asset management consultant with over 10 years' experience in marketing and implementing asset management software, specifically FIIX CMMS Software for the EMEA Region.

**ALAN TAIT** (Business Development Specialist for Africa) brings his vast experience in working with customers, taking products to market all through enabling high performing teams. He has a passion for engaging with people, communicating ideas and getting things done.

**SHANA STEVENS** (Finance & Accounts Manager) has been with SAINT Solutions since it was founded and continues to offer critical support and management to the business.

## OUR CLIENTS

## WHAT OUR CLIENTS SAY ABOUT US

*"I have worked with four other CMMS systems throughout my career and Fiix has been by far the easiest to set-up and use, which keeps the equipment running with less than 10% reactive maintenance."*

**BRYAN P., MAINTENANCE MANAGER, DESIGN**

*"Fiix is really easy to learn and use. I love how the search feature and filters are customizable and allows me to easily find anything whether by asset number or user. The design is also nice, very clean and easy on the eyes."*

**DAVID W., SENIOR MAINTENANCE TECHNICIAN, AUTOMOTIVE**

## CORPORATE SOCIAL RESPONSIBILITY INITIATIVES

We are a company that is dedicated to giving back to the community, and we believe in, and support, the development of disadvantaged and vulnerable entities. We wholeheartedly contribute to: Barking Mad Charity, SPCA, PNP Donations.

## GOING GREEN

As global sustainability and the preservation of our planet is paramount, we accept our role as a community leader through our position. Our software is a paperless system, all managed online via the Cloud, thus keeping the trees in the ground.
